Pétanque is a game for everyone regardless of age or gender. It is easy to learn so you can start playing immediately. It can be played competitively at a club, state, national and international levels or in fun social games.

All that is required is an area of firm ground; a set of metal balls, called boules; a jack, called a cochonnet; and, most importantly, a sense of fun. We provide boules and lessons for new players.

Come along and have a try!
